

RECENT EVENTS:

As many of you will no doubt have seen across social media and local news sites, there has been several incidents of worrying behaviour in the Metheringham Ward which has and still is being dealt with by both the Lincolnshire Police and The Anti Social Behaviour Department headed up by Heidi Ryder (who I have been liaising with) at NKDC. I am please to see a swift, serious and significant response by Lincolnshire Police and also by responsible residents to act on these events in such an appropriate and reassuring manner. Please be assured this will continue to be the case, consequences of poor behaviour will always be actioned so you be feel assured that our region remains a safe and welcoming community that is not marred by the actions of a few.

Let's not tar everyone with the same brush. With that in mind, we must have a balanced view and remember that the vast majority of young people and adults in the area and from out of our area are well behaved, responsible members of the public. We should ensure our spaces are safe so that our youngsters can do what kids do, like we did when we were their ages, run around, laugh, play and have fun and be valued for being 'children and teens' in our community.

So on a lighter note, I hope you are all well and are looking forward to a summer of picnics, walks in the countryside and visits to the beach.

I have a large list of free activities for people to do with friends and family over the summer so please email below for a copy (there's too much info to put on here!)
